WHICH?

[The following beautiful home-circle poem is intended for the family circle. It is founded upon an incident where a rich neighbor offered to make a poor family comfortable, and provide for the child if one of seven was given to him. Some one who has felt the pang of poverty, and yet been a father, with all the deep and holy feelings of a parent, has clothed it in poetical attire, and breathed into it a spirit of love, devotion, and faith that will find a holy response in the breast of every father and mother who are blessed with little pledges of affection, be they one or seven.—Sunday School World.]

"Which will it be? Which shall it be?"
I looked at John—John looked at me,
(Dear patient John, who loves me yet,
As well as though my looks were jet).
And when I found that I must speak,
My voice seemed strangely low and weak;
"Tell me again, what Robert said?"
And then I listening bent my head.
"This is his letter:

"'I will give
A house and land while you shall live,
If in return, from out your seven,
One child to me for aye is given.'"
I looked at John's old garments worn,
I thought of all that John had borne
Of poverty, and work, and care.
Which I, though willing, could not spare;
I thought of seven mouths to feed,
Of seven little children's need,
And then of this.

"Come, John," said I,
"We'll choose among them as they lie
Asleep;" so walking hand in hand,
Dear John and I surveyed our band,
First to the cradle lightly stepped.
Where Lillian, the baby, slept,
A glory 'gainst the pillow white;
Softly the father stooped to lay
His rough hand down in loving way,
When dream or whisper made her stir,
And huskily he said, "Not her—not her."

We stooped beside the trundle bed,
And one long ray of lamplight shed
Athwart the boyish faces there,
In sleep so pitiful and fair:
I saw on Jamie's roug, red cheek,
A tear undried. Ere John could speak,
"He's but a baby, too," said I,
And kissed him, as we hurried by.
Pale, patient, Robbie's angel face
Still in his sleep bore suffering's trace,
"No, for a thousand crowns not him..'
He whispered, while our eyes grew dim.

Poor Dick! bad Dick! our wayward son,
Turbulent, reckless, idle one—
Could he be spared? Nay, he who gave;
Bid us befriend him to the grave;
Only a mother's heart could be,
Patient enough for such as he;
"And so," said John. "I would not dare
To send him from her bedside prayer."

Then stole we softly up above,
And knelt by Mary, child of love,
"Perhaps for her 'twould better be,"
I said to John. Quite silently
He lifted up a curl that lay
Across her cheek in wilful way,
And shook his head. "Nay love, not thee."
The while my heart beat audibly.

Only one more our eldest lad,
Trusty and truthful, good and glad—
So like his father. "No, John. no—
I cannot, will not, let him go."

And so we wrote in courteous way,
We would not drive one child away;
And afterward toil lighter seemed,
Thinking of that of which we dreamed;
Happy, in truth, that not one face
We missed from its accustomed place;
Thankful to work for all the seven,
Trusting the rest to One in heaven.

Reminiscence of the War.

Report of Movements, Battles, &c., of the 2d Brigade, 4th Division, 5th Army Corps, from May 4th, 1864 to August 10th 1864.

[By request of several members of this Brigade, we, this week, lay before our readers, the Report of the movements battles &c., of the 2nd Brigade, 4th Division, 5th A. C., from the 4th day of May 1864, to the 10th day of August 1864, through the Wilderness Campaign &c. It was to this Brigade that the 56th Regiment P. V. V., was attached. This Regiment was partly composed of Centre County men, to wit: Company F, Capt. M. Runkle; Company H. Capt. R. B. Barger; Company I. Capt. Frank M. Huston. The 56th Pa. Regiment was made up of good men and true, and under the leadership of Col J. Wm. Hofmann, made for itself a history lasting as time itself. Many of the brave men who left their homes, in this County, full of health and hope for the future, to battle against secession and the enemies of Liberty and Right, now

upon Southern soil; but their names and deeds will live forever. Many fought all through the war, and returned to their homes, with their battle-scarred flag all covered with glory. Long may they live to witness the glorious results of their efforts, labors and hardships in behalf of Liberty, God and humanity. For the benefit of these, and their friends, we publish the following:—ED. REPUBLICAN.]

H'D QUAR'S, 2nd Brig., 4th Div., 5th A. C., (front Petersb'g) Aug. 10,'64.

Capt. C. McCLELLAN, *Ass't Adj't Gen. 4th Division, 5th A. C., Captain:*—I have the honor to submit herewith the report of the operations of this Brigade since the third day of May last.

FIRST EPOCH.

At 1, A. M., on the 4th of May, the Brigade broke camp at Culpeper, and moved on the Rapidan river. The Brigade consisted of the 14th Brooklyn, Col. Fowler; 56th Pa. Vet. Vol's, Col. Hofmann; 76th N. Y., Lieu't Col. Cook; 95th N. Y., Col. Pye, and the 147th N. Y., Col. Miller.

The 14th Brooklyn was detailed for duty at Corps Headquarters.

The Brigade had an aggregate present on that day of a little over two thousand, and was under the command of Brig. Gen. J. C. Rice. The Brigade crossed the Rapidan river over a pontoon bridge, laid at Germania Ford, at 12, M., on the 4th, and bivouaced near the Wilderness Tavern, Orange county, Va., at 5 P. M. At 7, A. M., on the 5th, the Brigade moved on Parker's Store, distant about four mile.

After marching about two miles, halted until 12, M., when the Brigade was formed in line of battle, and moved through a dense wood for the distance of nearly one mile, when it was met by a heavy fire of musketry from an unseen enemy. The Brigade was halted, and returned the fire. The position of the brigade was on the left of the division.—The officer in charge of the skirmishers, thrown out to cover the left flank, now reported the enemy to be advancing in a line, extending far beyond our left. Almost simultaneously with this report, the line on our right fell back in considerable disorder, and was followed by this brigade. The underbrush was very dense, and the men found difficulty in making their way through it. The enemy, still unseen, poured in a very destructive fire. At the end of half a mile, the officers succeeded in rallying about three hundred and fifty men on the crest of a slight elevation, and intended to hold the ground. At this moment an Aide of Gen. Wadsworth arrived with instructions to move some distance to the rear, to where the division was re-forming.—The brigade had suffered severely in this action in killed, wounded and prisoners, L't Col, Cook, 76th, wounded; Maj. Young, 76th, taken prisoner; L't Titman, 56th, killed. Three entire companies of the 76th, sent out as skirmishers in the early part of the morning, were captured; also one entire company, and part of two others, of the 95th, were captured. At 6 P. M., the brigade, under command of Gen. Rice, moved to the support of the 2nd corps, then engaged with the enemy on the Orange Court House and Fredericksburg plank-road, about one mile in advance of the crossing of the Brock road, and about three miles distant from where the division had reformed. The route was through a dense wood, in many places impenetrable. It was 9 P. M., when the brigade found itself in position about a quarter of a mile from the plank road, and facing it. The men were allowed to lay on their arms until 4 A. M., on the 6th, when Gen. Rice directed the 95th, and part of the 147th regiments to be deployed as skirmishers, and move forward. The position now held by the brigade was the extreme right of our lines. It was found impracticable to move the line of skirmishers far forward.

The enemy now succeeded in bringing a battery to bear, enfilading us from the right flank. The two right regiments—56th and 76th—changed front to the rear on the left company, and opened fire upon the skirmishers that had now advanced to the crest of the hill, about three hundred yards distant, and drove the skirmishers back. Gen. Rice then directed the 56th and 76th to make an effort to capture the battery. These regiments were then moved forward, and to the right, screened by a wood; moved to a point nearly on a line with the battery, with the intention of taking it with the bayonet. The detachment captured the skirmishers thrown out to protect the flanks of the battery, but when the detachment arrived within one hundred yards of the edge of the woods, the movement was discovered by the enemy—the battery limbered up, and was hastily driven to the rear for about four hundred yards, where it again opened with spherical case, and forced the detachment back.

In this movement, Capt. Runkle was severely wounded, and Lieut. Evy killed, both of the 56th; also Capt. Burns, of the 95th was killed. The enemy, at 8 A. M., came forward in strong force, and pressed our lines back for nearly half a mile, but, in turn, was compelled to fall back to his former position. At 11 A. M., the brigade was formed in line of battle, at a right angle with the plank road.

The firing on both sides had ceased for nearly an hour, excepting that from some of the enemy's sharp-shooters. At 12 M., the enemy again came forward in great force on the left of the plank road, Gen. Wadsworth, the division commander, who was present with the brigade, ordered it to change front, forward on the left battalion, forming the line on the right of the plank-road, and parallel with it.—Gen. Wadsworth stated at the time that the object of the movement was to take in flank the enemy as he came forward.

The right flank of the brigade was exposed to the fire of the enemy's battery and sharpshooters posted on the hill beyond our right, and suffered severely.—This, with the impetuosity with which the enemy came forward, broke our lines, the troops were forced back in confusion. The ground over which they moved offered no favorable opportunity for rallying the men for the first half a mile. A slight elevation now presented itself, and an effort was made to rally the men. It was only partially successful, and they retired as far back as to the Brock road, and a quarter of a mile north of the plank-road. The brigade had again suffered severely in killed, wounded and prisoners. Amongst the dangerously wounded was Capt. Burritt, A. A. A. G., of the brigade. It was whilst being immediately in rear of the centre of this brigade that Gen. Wadsworth was killed while in the act of cheering on the men.

Gen. Rice now directed Col. Hofmann to re-form the brigade, and collect the officers and men of the division that were in that vicinity, and form the line in rear of the Brock road, the left of the line resting on the plank-road. At 4:30 P. M. the brigade consisted of detachments of the 56th, 142nd, 143rd, 149th and 150th P. V., and 76th, 95th and 147th N. Y., and a company of the 6th Wisconsin.—Most of the detachments had their regimental colors with them, and formed an aggregate, at that hour, of four hundred and eight men.

At 5:30 P. M., the enemy again came forward on the left of the plank road, and succeeded in forcing a portion of our troops back from the line of works that had been erected on the west side of the Brock road by the second corps, and planting the rebel colors upon the works. Gen. Hancock, through Gen. Rice, directed Col. Hofmann to move his brigrade to the support of the troops at the works. The brigade was moved out rapidly by the right flank, and when the head of the column arrived at the point of the works where they had been vacated by our troops, the brigade was formed in line of battle at nearly a right angle with the works, the men firing as fast as they came into line. In the course of ten minutes the enemy was driven from the works, and back into the woods from whence he had emerged. Several hundred men now sprang over the works, and desired to follow up the enemy. Col. Hofmann felt it his duty to recall them, as he was uninformed whether he could be supported or not. He then reported his action to Gen. Hancock, who approved of it.

At 8 P. M., the brigade was relieved and ordered into the second line of works, and at 3:30 A. M., on the 7th, again moved into the front line. At 7 A. M., it was moved three-fourths of a mile to the left and erected new works. At 11 A. M., it was ordered to rejoin the division, then on the right, and half a mile beyond the plank road. Gen. Rice, who had had a special command, now returned and assumed command of the brigade. At 4 P. M., the brigade moved to the Lacy House, and at 10 P. M., took up the line of march for Spottsylvania. The 14th Brooklyn now joined the brigade.

SECOND EPOCH.

On the morning of the 8th of May, after having marched all night, the brigade arrived at Todd's Tavern, halted here for breakfast, then moved forward and met the enemy at Laurel Hill. Gen. Rice directed the 56th and 95th to move forward and clear the enemy from an orchard that he then occupied, about half a mile from the road. These regiments cleared the orchard, but were found to be inadequate to hold it, and the 14th Brooklyn, 76th and 147th were sent up to their support. Subsequently they were relieved by troops from another division, and the brigade moved in rear of a ridge, where they remained until 5 P. M., when it again moved forward, and to the right of the orchard, where breast works were erected and occupied until 2 P. M., the 18th, at which hour the brigade under command of Gen. Rice moved forward to attack the works of the enemy, then about six hundred yards in our front. The attack failed, and the brigade returned to a position nearly in rear of that which they had occupied. In this charge Gen. Rice was mortally wounded. After having his leg amputated, he was asked by the attending Surgeon which way he desired to be turned that he might rest more easy. He replied: "Turn me with my face to the enemy." These were his last words, and indicated the true character of the man, the soldier and patriot.

Col. Fowler being the ranking officer, now assumed command of the brigade.

On the evening of the 11th, the brigade again moved to the attack of the enemy's works. After having been in line for half an hour, subjected to a severe flank fire from the left, the brigade was withdrawn—the attack having been suspended. A considerable loss was sustained in killed and wounded.

At 8 A. M., on the 12th, the brigade again moved forward to the attack. After moving forward about four hundred yards, and at the front of a ravine, the underbrush was of such a dense character, that it was found impossible to push the line through it, and, as the troops upon the right encountered the same difficulty, and were unable to move forward, the brigade was withdrawn.

At 1 P. M., the brigade was moved to the left for nearly two miles, to a point where a portion of the 2nd corps had captured the works of the enemy, but had subsequently abandoned them. The 56th, 147th and 14th were ordered to form a column to attack the works, but before the column was formed, the order was suspended. These regiments, and, subsequently, the others of the brigade, were then moved to a point of the works, where they were cleared of the enemy, and formed in line, nearly at right angles with the works, the left resting on the works. In this position, they were directed to fire continually, to prevent the enemy, who occupied the opposite side of the breastworks, from firing, or from sallying out.

The brigade continued this fire from 3 P. M., until 2 A. M., on the 13th, when they were relieved by other troops and moved to the rear. The loss sustained during this firing was small—the troops protected by the parapet of the works of the enemy, and by a depression of the ground in front of them. The enemy made many efforts to fire. There is every reason to believe that those who made the effort were generally killed, as the pits, on the following day, (the enemy having withdrawn before daylight,) were filled with dead. Over thirty dead were counted in one pit of about fifty feet in length. This pit also contained some wounded, buried beneath the dead.

At 9 A. M., the 13th, the brigade again moved to the right, a distance of two miles, and at 10 P. M., moved to the left over a very muddy road. At daylight it arrived within three-fourths of a mile of Spottsylvania Court House. It was subsequently moved a quarter of a mile further forward, and threw up breastworks. Occupied this position in front of the enemy until 11 A. M., 22nd, when the brigade moved on towards the North Anna river. The term of service of the 14th (Col. Fowler) having expired, the regiment was detailed for special duty on the way to Fredericksburg, by order of Gen. Cutler, commanding the division. Col. Hofmann, of the 56th, now assumed command of the brigade.

THIRD EPOCH.

The brigade bivouaced at 8 P. M., at Catlett's House, near Guiness Station, on the Richmond and Fredericksburg Railroad; moved at 11:30 a. m., on the 23d, bivouaced at Bull's Church; moved at 5 a. m., on the 24th, and halted at Campbell's Church; re-passed the church at 2 p. m., and forded the North Anna river at Jericho Bridge.

The brigade was formed in line of battle on the heights, about half a mile above the ford. The 95th (Col. Pye) was deployed as skirmishers, the line extending from the wood in our front, to the river, about half a mile on our right, connecting with the skirmish line of another division on our left. At 6:30 p. m., the enemy attacked our front line of troops then occupying the woods. This brigade was moved to the front, and to the right, to near where the skirmish line was then formed. It was then formed in line of battle about one hundred and fifty yards in rear of it. The enemy now charged through the wood. The brigade in our front broke, and passed around our left flank. This brigade, then under a heavy musketry fire from the enemy, changed front to the rear on the left battalion, and formed a new line, at an angle of about forty-five degrees from the old line. This was rendered necessary in order to let Capt. Mink's battery, which had been brought up, and was occupying the ground, between our right and the river, open fire. Another battery was then brought up on the right of Capt. Mink's.

The enemy made several efforts to charge from the woods, but failed. They kept up a heavy fire from their skirmish line for over an hour, when the firing on both sides ceased. Capt. Watkins, of the Staff, then moved forward a line of skirmishers very rapidly, and succeeded in capturing over an hundred prisoners, who represented that they were of Lane's, Cook's and Scale's brigades, of Heth's and Wilcox's divisions.

The line was then moved forward, and earthworks thrown up, and the position held until 5 a. m., 25th. In this action the officers and men behaved splendidly. I think, to them is due the credit of saving the artillery from being cut off, and, in all probability, saving the army from a terrible disaster. In this action the 56th was commanded by Capt. Black, who, having been severely wounded, retired, the command of the regiment devolved upon Lieut. Baker. The 76th was commanded by Capt. Byram, and the 147th by Lieut. Col. Harney. Lieut. McFall, of the 56th, rendered very efficient service as an Aide-de-Camp.

On the 25th the brigade moved down the right bank of the river for several miles, then moved to the right, into a wood, formed line of battle, and erected breastworks. During the day a very heavy loss was sustained on the skirmish line. Lieut. Young, of the 56th, was killed, and Lieut. Shaw, of the same regiment, severely wounded. At 10 p. m., on the 26th, re-crossed the North Anna at Quarter's Mills, and moved on the Pamunkey river.

FOURTH EPOCH.

On the 27th bivouaced at Mongahick; moved at 7:30 a. m., on the 28th, crossed the Pamunkey over a pontoon bridge laid at Hanover town; erected works on the heights about two miles from the river. At 10 a. m., on the 29th, moved to near Tolopotomy creek, formed line of battle on the plantation formerly the property of Patrick Henry. Occupied the ground until next morning. On the 30th the brigade moved at 5:30 a. m., having had the 3d Del. Vol's, Lieut. Col. Darrell, numbering 284 men, and the 46th N. Y., Col. Travis, numbering 149 men assigned to it. The brigade moved to within one mile of Bethesda Church, and was sent to the support of a brigade of the 3rd division of this corps. This brigade had scarce got into position when the enemy made a heavy attack on our lines, but principally to the right of this brigade.—He was driven back with a heavy loss of killed and wounded. The ground was held until 10 a. m., the 31st, when the brigade moved half a mile forward. At 7 p. m., it was moved to the right of the corps line to relieve the brigade of Gen. Bartlett. It occupied the works of that brigade, and was engaged with the enemy up to 12 p. m., when it was relieved, and moved to the left of the Mechanicsville road, about half a mile in front of Bethesda church. The instructions were to connect with the first brigade, and extend the line to the road, the right of the brigade to rest on the road. This was found to be a difficult task, owing to the dense thicket through which it was necessary to move the troops. By daylight the line was formed. The 157th P. V., numbering 193 men, was assigned and reported for duty at 8 a. m., on June 1st. Capt. Cowdrey, A. A. G., was assigned and reported for duty

At 5 P. M., June 2nd, the enemy attacked our right, which was thrown back on new works thrown up at nearly a right angle with the former lines. A portion of the old line of works was occupied by the enemy. In this attack Col. Pye, 95th was mortally wounded. The brigade remained in the new works until 10 P. M. on the 5th, meeting with considerable losses from sharpshooters of the enemy. Capt. Goddard, commanding 76th, was severely wounded. The 46th was transferred to the 9th corps.

At 10 P. M. on the 5th, the brigade moved to Cold Harbor, where it arrived at 4 A. M. on the 6th. The 4th Del. Vols., Col. Grimshaw, numbering 29 officers, 425 men were assigned to the brigade and reported for duty. Remained in bivouac until 8 A. M., on the 7th, then moved on the Chickahominy river and halted within one mile of Lanier's bridge. I was then directed to move the brigade to, and take possession of the railroad bridge crossing the Chickahominy. The brigade was moved by a circuitous route through the woods (in order to screen the movement from the enemy,) to a point half a mile west of Despatch station. The enemy had works three fourths of a mile beyond the bridge that commanded the railroad for nearly two miles. A screen of brush was constructed across the railroad and two regiments passed in rear of it to the opposite side. A heavy skirmish line was then moved forward upon both sides of the railroad, the enemy driven across the river, and possession taken and held of the east end of the bridge. The line of battle was then formed about a quarter of a mile in the rear, and pickets posted on the river bank to the left and to the right, connecting with those of the first brigade on the right, and extending on left toward Bottom's bridge. In driving the enemy back our loss was five men wounded. The line of battle was at no time exposed to the view of the enemy. In the afternoon the enemy opened with solid shot and shell of very large calibre, (aimed as the newspapers of Richmond stated the next day, at the screen on the railroad behind which it was presumed that works were being erected,) No loss was sustained by this fire. The brigade remained in this position until 10 P. M., on the 12th, then moved to the left. Crossed the Chickahominy over a pontoon bridge laid at Long Bridge, at 4 A. M., on the 13th. At 4 P. M., moved to near Wilcox's Landing on the James river, bivouaced and remained until 10 A. M., on the 18th, then crossed the river in steamboats, landing about three miles above Windmill Point. Remained until 2 P. M.

FIFTH EPOCH.

Moved on Petersburg at 2 P. M., on the 16th, bivouaced two miles beyond Prince George Court House, on the plantation of Mr. Buchord, at 7 A. M., on the 17th, moved about two miles to the front. Found the enemy posted in rear of a strong line of works. Formed line of battle and threw up works on the west side of the Blackwater road, our left joining the right of the first brigade whose left rested on the Petersburg and Norfolk R. R. Remained in this position all day. Loss, ten men wounded. At 4 A. M., on the 18th, the brigade moved forward to attack the works of the enemy. It was soon ascertained that the enemy had withdrawn during the night, and that he had also abandoned his second line of works about a quarter of a mile in rear of the first line. Upon moving forward the skirmish line, the enemy was found posted in rear of a third line of works, his skirmishers thrown forward to near the railroad. The brigade was moved to the west side of the railroad, and formed in line of battle in a wood, the right of the brigade resting on the railroad, and subsequently moved to the front of the woods and in rear of a hill. At 3 P. M., the brigade was formed in one line of battle on the crest of the hill and moved forward to charge the works of the enemy, then about seven hundred yards in our front. In order to reach the enemy's works it was necessary to cross a ravine about two hundred yards in front of the works. The line moved forward with spirit. The enemy immediately opened with musketry and spherical case, and, as we approached nearer with canister. When the line had arrived near the ravine the loss had already been very great, for the troops were exposed to a fire not only in front, but also upon both flanks.

As the line was descending the rear slope of the ravine, it broke, many returned—about two hundred reached the opposite slope of the ravine, where they found shelter by laying close to the ground, Lt. Col. Harney was the only regimental commander, that reached this point. My horse was killed a moment before the line broke, and I did not reach the opposite side of the ravine. The officers now rallied the men in rear of the crest from which the line had moved when the charge commenced. About four hundred and fifty men were formed in line. An order was received at 4 P. M., to prepare for a second charge at 5:30 P. M., it was however subsequently suspended. The troops in the ravine remained until dark when they were withdrawn. Pickets were now thrown out to the foot of the ravine. A new line of battle was formed and advanced to the crest of the hill and breast-works were thown up. The wounded were brought in and the dead buried. The brigade had suffered a very heavy loss in killed and wounded. Of the seven regimental commanders Lt. Col. Darrell, commanding 3rd Del. Vols. was killed; the command then devolved upon Capt. McKaig. Capt. O. Munford commanding 56th P. V. V., was killed and the command devolved upon Lt. Baker. Col. Grimshaw, commanding 4th Del., was severely wounded and the command devolved upon Lt. Col. La Motte, who was also slightly wounded but remained on the field. Lt. Col. Creney commanding 95th N. Y. was severely wounded and the command devolved upon Maj. Bard, Capt. Byram, commanding 76th N. Y., was very seriously wounded and the command devolved upon Capt. J. C. Hatch. Lt. Col. Harney 147th N. Y., was slightly wounded but remained in command of his regiment. The 157th was commanded by Capt. Hawthorn. Capt. Lambdin, A. A. D. C., was seriously wounded.

The brigade occupied the works up to July 31st being relieved by, and relieving in turn every three days the 1st brigade of this division.

During the campaign the officers and men of the brigade have evinced great bravery, patriotism and fortitude.

From May 3rd to July 31st, a period of nearly ninety days, not more than five days passed that they were not under the fire of the enemy.

I desire to mention my staff. Capt. Cowdrey, A. A. G., Capt. Watkins, A. A. I. G., Capt. Lambdin, Lt. Healy and Lt. Bush, Acting Aides de Camp, for their efficiency in promulgating and attending to the execution of my orders.

I herewith transmit a tabular recapitulation of casualities in this brigade, during the campaign. Killed, 14 officers, 197 men; seriously wounded, 26 officers, 424 men; wounded slightly, 15 officers, 389 men; wounded description not known, 6 officers, 128 men; missing, 23 officers, 376 men; total 84 officers. 1514 men; aggregate 1598.

I have the honor to be, Captain, very respectfully your obedient servant,
(Signed) J. W. HOFMANN,
Col. commanding Brigade.

HEAD QUARTERS 1ST DIVISION, 1ST A. C., November 5th, 1863.

TO THE GOV. OF PENNSYLVANIA,

Sir:—In noticing in the papers to-day an account of the proposition for a National Cemetery at Gettysburg, for the men that fell there in July last, I am reminded that I have neglected a duty which I owe to one of your Regiments—the 56th. That Regiment is in the 2nd Brigade of this Division; and was, at that time, under my command. It was my fortune to be in the advance on the morning of July 1st. When we came upon the ground in front of the enemy, Col. Hofmann's Regiment,—being the second in the column,—got into position a moment sooner than the others, the enemy now advancing in line of battle within easy musket range. The atmosphere being a little thick, I took out my glass to examine the enemy. Being a few paces in rear of Col. Hofmann, he turned to me and inquired, "is that the enemy?" My reply was "yes." Turning to his men, he commanded, "Ready,—Right-Oblique,—Aim,—Fire!" and the battle of Gettysburg was opened. The fire was followed by other Regiments instantly, still that battle on the soil of Pennsylvania was opened by her own sons, and it is just that it should become a matter of history. When Col. Hofmann gave the command "aim," I doubted whether the enemy was near enough to have the fire effective, and asked him if he was within range; not hearing my quest on, fired, and I received my reply in a shower of Rebel bullets, by which many of the Col. men were killed and wounded. My own horse, and those of two of my staff, were wounded at the same time.

I desire to say to your Excellency, that the 56th is one of the very best Regiments in the service.

Very respectfully, your obedient servant,
L. CUTLER,
Brigadier General.

HEAD QUARTERS 56th REGT. PA. VOLS., Camp near Kelly's Ford, Va. December 5th, 1863.

TO PRESIDENT UNION LEAGUE, PHILADELPHIA.

Dear Sir:—Permit me to offer for the acceptance of the League over which you preside, the accompanying flag. It has been used by my Regiment as a Camp Flag.

In the month of June last, the Regimental Flag was sent to Philadelphia, to have inscribed upon its folds the names of the actions through which the Regiment had passed. This Flag was then used as the Regimental Flag, and as such it was carried through the memorable battle of Gettysburg.

It was the fortune of my Regiment to open that battle, as is attested by the enclosed extract of a letter from General Cutler, commanding our Brigade on that occasion, to his excellency, Governor Curtin. The Officers of the Regiment have desired me to present this Flag to your League, in appreciation of its services in our common cause—the crushing of the fratricidal rebellion.

The Flag bears the Disc, or Sphere, the badge of our Corps in the Division color. It also bears some evidence of the strife through which it passed.

In presenting this Flag to you, you will pardon me, sir, if I, with some feelings of pride, ask your attention to the complimentary language in which General Cutler alludes to the Regiment that I have the honor to command.

I am, sir, very respectfully, your fellow-citizen,
J. WM. HOFMANN,
Col. 56th Regt. Pa. Vols.

PHILADELPHIA, December 28th, 1863.
COL. J. WM. HOFMANN, 56th PENNA. VOLS.

Dear Sir:—The "Camp Flag" of your Regiment, which was ennobled by the use to which it was applied in the great battle of Gettysburg, has arrived safely at the League House.

It is difficult to express the feelings with which we look upon these storied relics of the war. The least of them possesses an interest which attaches to no other memorials, save those of the old Revolution. But when we receive a flag that led the van through the flame and smoke of Gettysburg—that fluttered through those three immortal days over the heads of the most distinguished of our own regiments, and emerged from the terrible battle crowned with historic glory—we strive in vain, with tongue or pen, to make clear the emotions that possess our hearts. Your Flag shall have one of the highest places amongst the tattered and war-worn colors that decorate our walls; and we feel proud that you and your gallant officers think so well of our association as to entrust us with the keeping of a symbol which you must prize above all others.

The testimony of your Brigadier was not necessary to inform us of the eminent part which your Regiment took in the battle of Gettysburg. Wherever the regiments of our state have marched, we have followed their course with confident pride, nor has our pride been misplaced, as the long list of battles inscribed upon your flags, and recorded in the despatches of your Generals so amply testify.

In you, sir, as a Philadelphian, we may be pardoned for feeling even somewhat more than the usual enthusiasm with which we hail the heroic soldiers of our native state. We cannot forget that your brave deeds cover our city with a peculiar lustre, and that to hear your name mentioned on the roll of honor is almost like listening to the praises of one's own family. I am sure that when you enter the League House you will be welcomed as though you were entering the door of your home; and, o such a welcome permit me to invite you and all the Officers and private Soldiers of your command, whenever it may be your chance to visit Philadelphia.

Once more thanking you for the honor which you have conferred upon the present custodians of your flag, I remain, dear sir,
Your obedient servant,
GEO. H. BOKER,
Secretary, U. L. P.

"DANG IT, HOW IT NIX HIM."

[This article was prepared for last week, but was crowded out.]

We stated in the REPUBLICAN that Peter G. Meek and the Court House Ring had laid a trap to frighten Hon. J. G. Moyer off the course as a candidate for re-election to the Legislature, for the reason that he was not, "a sharp energetic and experienced Legislator," and that it was their determination to force him to decline in order that Alexander might be nominated for the Senate, and Peter G. Meek nominated the third time for the Legislature, according to the Scheme planned and concocted by Jim Burns; Gen. Potter and Aleck Reed. They have succeeded, as we have every assurance that Moyer is frieghtened off, and will present his declination to the convention and thus leave Meek in all his glory. Provided, always, that some other fellow does not spoil it. Meek is afraid of this for in his last *Watchman* he squims and wiggles at the solemn truths we have been publishing in regard to the tricks, and corruption of the Bellefonte Democrats and the Bourbons of the Ring, and yelps out that it is "A Game that wont work."

And then, with the most unblushing impudence, based upon his supposed ignorance of the Pennsvalley Democracy asserts that somebody has "resorted "to the cry of Ring and the most bare-"faced lies about the condition of the "county finances, in order to create "dissatisfaction in the Democratic "townships, that pay the greater pro-"portion of the taxes of the county." Is this not Peter G. Meek in his true character. Listen to him. "Barefaced "lies &c., creating dissatisfaction in "the Democratic townships that pay "the greatest proportion of the taxes of "the county." Now we ask how could "barefaced lies" affect in anyway the Democrats of the strong "Democratic townships?" It is the truth, that hurts Peter G. Meek. It is the incontrovertable facts we are publishing that is "creating dissatisfaction in the Democratic townships &c." Facts which Meek has not attempted to contradict, and the exposition of which cause both Meek and his cohorts of the Ring to tremble like Bellshazzer of old.

This craven, hungry office hunter has become crazed and blinded to truth and honesty, and believes in the ignorance of the Democratic townships, and that he can, therefore, gull them; and hoodwink them in such a manner as to procure their assistance, in the Convention, to nominate him for the Legislature as *the* chosen and *willing* co-worker and *tool* of Burns, Potter and Reed in all corrupt and profitable Legislation. He calls us hard names and resorts to low personalities, and in this way expects to quiet the "dissatisfied Democratic townships that pay the greatest proportion of taxes &c," but does not produce one argument to show that we are mistaken, or that we have published "bare-faced lies." The tax payers all over the county, Mr. Meek see this, and have become dissatisfied with the Ring, and they will not "down at your bidding." Argument, not abuse, is what they demand of you.

Now, Meek, come and let us reason together. What did we publish about the county finances? Did we not simply call the attention of the tax-payers of both parties, to the statement of the Receipts and Expenditures of the county as settled by the Auditors, and published in the *Watchman* by you Mr. Meek? Take down your file of papers and look at it. Read the report and thus refresh your memory. Does that Report, not show that the *pet* collectors of the County Commissioners have not paid the taxes of 1868 *and previous years* into the County Treasury? Does it not show that there is, in the hands of those pet collectors, a sum of money, sufficient to pay off the whole county indebtedness and leave a surplus? Now Meek, you know this is the plain truth.

But instead of the Commissioners doing their duty, and compelling these defaulting Collectors to pay up, and thus enable them to lower the taxes, they borrow money from shavers at 12 per cent interest, and at the same time assess upon the tax-payers—the hard fisted yeomanry of the county, *six mills* on the dollar, for the purpose of paying this illegal and usurious interest. Deny these facts if you dare, Mr. Meek. Will you now have the hardihood, to assert that these are "Barefaced lies about the condition of the county finances" published for the purpose of creating "dissatisfaction in the Democratic townships, that pay the greater proportion of the taxes of the county?" If they are lies, Mr. Meek, who is to blame? Did you not print the Auditors Report correctly? If you did, we are right and you are wrong, and the Report will bear us out in all we have stated. Not a single *lie* have we published. If we have, please point it out and we will most cheerfully make the correction. Point it out, ah; "there's the rub." This is the point at which all arguments fail you Mr. Meek. You are dumb before the tax-payers and can do nothing but throw *mud* and *filth*.

Let every tax-payer, in the county, read the Auditors and Commissioners Report, as published in Mr. Meek's *Watchman*, and they will find these "most Barefaced lies" signed by the Commissioners and Auditors and published for the information of the tax-payers. But Meek has become frightened, well knowing that the tax-payers have read the official Report of the Commissioners, taken from the *Watchman*—that same report from which we gather our facts, and which was before Mr. Meeks eyes, at the very time he pronounces them "bare-faced lies." But what will Meek not do, and sware to, to deceive his readers, to advance his own peculations and corrupt ends?

MEEK CHANGES HIS BASE.

He does not like to talk about the finances of the County as at present managed by the official custodeans. It is a troublesome question to him. He dare not tell the truth in regard to them, so he dismisses the subject and in the same article turns his attention to a new theme—a new source of trouble Terror stricken, and sick at heart, at the dissatisfaction which exists, in the Democratic party, in every portion of the County, and the imminent danger of having an independent candidate sprung upon him at this time, he exclaims in the language of Hamlets Ghost.

"My hour is almost come,
When I, to sulphurious and tormenting flames,
Must render up myself."

And while in this phrenzied State of mind he whines out. "This time they "are trying to make believe that so much "dissatisfaction exists among the Demo-"crats of Pennsvally, that an *indepen-"dent candidate* for the Legislature is to "be brought out."

Here are the throes of an entriguing scheming and dishonest imagination, after the Ring had compelled J. G. Moyer to strike his flag and surrender, to Alexander and Meek, the "sharp, energetic and experienced Legislators," and thus assist them in making the Democrats of Pennsvally and Brushvally take the water and stand back like a bound boy at a husking "for one year." Mr. Meek becomes alarmed, fearing that they will be caught in the rascally game he and his cohorts are playing, and he talks about the radicals having agents out, endeavoring to purchase some Democrat to run independent. This is another insult to the Democracy of Pennsvally. Democratic farmers of the rich and beautiful valley of Pen, can you be purchased by Radical Agents? Meek fearing that you may be, becomes alarmed and cries out, "Do not I pray you bring out an independent candidate for the Legislature this time. It has been arranged that Bellefonte is to have the Senatorial and Legislative candidates in the persons of C. T. Alexander and myself—P. G. Meek," They are the sharp and energetic bloods for these positions, and it is decreed and fixed that they, and they only, are to be nominated by the mandates of the Court House Ring. They must go, because they are men of "experience" and next winter the Legislative corruption fund will be large and both Meek and Alexander know how to secure their portion, being "sharp energetic and experienced Legislators."

Now, in all good faith, we ask the Democracy of Pennsvally, have we not for weeks past, in the columns of the REPUBLICAN, been telling you of the tricks and schemes of the Ring—the "selfish men of Bellefonte" as "Fred Kurtz" calls them,—who only want your votes; while they deny both, by word and action, that you have any men of common sense or intelligence to represent the County in the Senate or House. Is this not proving itself every day, and are not Alexander and Meek now the candidates of the Ring? Do they not boldly proclaim that they will be nominated, and that the party must elect them? Democrats of Centre county turn where you will, look around you, and behold the workings of the corrupt and selfish leaders of your party, and you cannot fail to see abundant evidence of the truths which we have been publishing from week to week. Will you suffer these things to go on forever? Will you remain forever blind to your own interests? Will you consent to be used as pack horses, to carry the burdens of the Ring? Are you willing to do all the work and all the voting, in order that a few selfish and unprincipled men may drive fast horses and live in luxury and ease? What have they ever done for you, but increase your taxes? What will they ever do? What have they ever done for the farmers, mechanics, and working men? What have these leaders ever done for the State—for the nation?

Democrats of Pennsvally—of Centre county, bestir yourselves, arouse, and Sampson-like, burst the withes, with which you are bound. Assert your independence of the Bellefonte Ring. Seize the pillars of the luxurious Temple which they have reared, and in which they have been rioting and feasting at your expense, and hurl it down,—in fury down—though it should crush in its fall every *Meek* Philistine in the land. Do this now, or be forever bound. Strike now or remain forever "hewers of wood and drawers of water" for the Court House Ring.

DEMOCRATIC EXTRAVAGANCE.—The results of Democratic extravagance are apparent in the largely-increased debts of the State over which they retain control. According to the Louisville *Commercial*, when the Democratic party came into power in Kentucky, they found a surplus in the treasury of over twenty-five thousand dollars. They have been in power four years, and there is a deficiency in the State Treasury of over a million of dollars, and their own Auditor says that the government cannot be carried on without the taxes are increased. Democratic "economy" in Kentucky would be repeated everywhere were the party entrusted with the keeping of the National and State Treasuries.

KENTUCKY ELECTIONS.—The effect of the colored vote is shown in the returns from such of the counties of Kentucky as have reached us. Jefferson county, the great Democratic stronghold, containing Louisville, gives a Democratic majority of 4,200. Last year it gave 9,571 for Seymour, Grant polling but 1,481 votes. The Republican vote cast at the late election exceeds 7,000. Fayette county gives 50 Democratic; last year it gave 1,450. The returns from the other counties are similar to these, and indicate that the Democratic majority in the State has been cut down fully three-fourths.

DEMOCRATIC DELEGATE HOB-NOB—THE DUPLICITY OF MEEK AND THE RING.

For the last four or five weeks past there has been standing at the head of the Editorial columns of the *Watchman* S. T. Shugert's command, as Chairman of the County Committee, to the faithful to meet on Saturday the 6th of August, and elect delegates to attend the Democratic County Convention to be held on the 9th of August.

In that command, or call for a convention, Mr. Shugert announces the number of delegates to which each township and borough is entitled. To this point we wish, for a moment, to direct the attention of the honest Democrats of Centre county—that portion of them, we mean, who are not bound hand and foot by the Ring, and who have the manhood and independence to look at facts and figures as they exist, and then do their own thinking.

Look at them. It is really amusing to see the means and tricks resorted to by the Ring to gull the honest voters of the party, and to retain themselves (the Ring) in power. In that apportionment we find that the large Democratic majority townships on the Pennsvalley side of the county have but 34 delegates, while the minority townships on the Nittany and Bald Eagle side of the county (in which Brick Pomeroy said "nobody but ignoramouses lived") have 38 delegates, leaving the Pennsvalley strong Democratic townships in a minority of *four*. To explain more fully. The *seven* townships on the south side, viz., Ferguson, Harris, Potter, Gregg, Penn, Haines and Miles, at the last Gubernatorial election, gave Packer 1,556 votes, and Gov. Geary 793. Democratic majority 763 votes.

The north side, including Bellefonte, gave Geary 2,096 votes; Packer 1,724.—Republican majority 400, which, deducted from the majority of the Pennsvalley side, leaves Packer 362 majority in the county.

Any one can see, at a glance, that the Democratic townships on the Pennsvalley side of the county saved the Court House Ring and its ticket in October last.

Let us, however, examine the official returns of that election a little more minutely. In Bellefonte Packer had 228 votes; J. G. Meyer had 219; nine votes less than Packer. These nine—being Meek's friends—refusing to vote for Meyer, in order to punish him for defeating Meek's nomination.

In the county, Packer had 362 majority, while Jacob G. Meyer had but 225; one hundred and thirty-seven of Meek's friends forgetting Meyer and *his* friends—the Pennsvalley Democracy—and these especial friends of Meek were under the firm conviction and belief that Moyer would be defeated, and in this they were encouraged by the heartless support given to Meyer, by Meek, in the *Watchman*.

Meek, and his friends of the Ring, having failed to defeat Jacob G. Meyer last fall, immediately after the election, enter into a secret combination to defeat his re-nomination. They determine to let him paddle his own canoe, and to crush the pretentions of Fred Kurtz, or any other Pennsvalley Democrat looking towards a nomination as Senator or Legislator. Sneeringly these Pennsvalley Democrats are told by the *Watchman* that they have no "sharp, energetic and "experienced Legislators who know the "politicians that hang about Harris-"burg," and that, in consequence of this fact, they must stand back for "one "year."

How well they have succeeded in carrying out their tricks, let the "Card" of Jacob G. Meyer, published in last week's *Watchman*, declining a re-election, answer. The publication of that card developes the whole scheme, and proves all we have been publishing in regard to the tricks of the Ring, to be incontrovertible facts. Re-call to your memories the statements contained in our Haines township correspondence of three weeks ago. The Ring had it all "set up" at that time. Their agents had visited Jacob G. Meyer and obtained his consent to withdraw from the contest, and to withhold the publication of his letter declining a re-election until the last moment, so as to blind the eyes of Capt. Hunter, Sam'l Gilliland, Wm. J. Kelsh, Fred Kutz, and other aspirants for Legislative honors. In the mean time, Peter G. Meek and C. T. Alexander, the only men really in the possession of the knowledge in regard to Meyer's determination to decline, travel the whole county over, and "fix up" the township delegates before Capt. Hunter or any other aspirant knows anything about it. Well might Capt. Hunter and his fellow-aspirants adopt the language of Shakespear's Romeo and Juliet, and say to Meek:

"A serpent heart, hid with a flow'ring face!
Did ever dragon keep so fare a cave!
Beautiful tyrant! fiend angelical!
Dove-feathe'd raven! Wolvish-ravening lamb!
Despised substance of divinest show!
Just opposite to what thou justly seem'st."

But, nevertheless, at the very last moment, as per contract, Jacob G. Meyer's card is published in the Watchman.—"Will this game win?" Meek says it will. To this end he has traveled the minority townships to procure the delegates to overpower the majority townships and Fred Kurtz. His schemes for packing the convention with his favorites and tools are well laid, and if he should succeed in obtaining the nomination, we will then hear him bawling out "stick to the ticket, and vote for the "'sharp, energetic, experienced Legis-"lator,' who has only served twice in "the Legislature, came home, erected a "brick palace with a Hall in it, out of "the honest (?) pickings of two sessions "at Harrisburg. Send me back," says Meek, "and, on my return, I'll beautify "my three-story brick, as the next ses-"sion of the Legislature will afford rich "opportunities to make money; and, as "Jim Burns, Gen. Potter and Aleck "Reed have elected me a member of "the co-operation-fleecing committee, "where all is *gain* and nothing lossed, "I can make myself able to reward my "friends in a substantial and handsome "manner."

At this writing (Tuesday morning the 9th inst.) Meek has the inside track, and will, most assuredly, be nominated, unless the Ring is compelled to change its mind, and nominate another man for the sake of harmony in the party. At present, however, the cry of the Ring is, Meek must be nominated with C. T. Alexander, the Pennsvalley Democrats and Fred Kurtz left out in the cold, with direct and emphatic orders from said Ring not to *dare* to attempt the running of an *independent* ticket. Oh! Democracy, how hast thou fallen!

THE EUROPEAN WAR.

Our European news are up to the 7th inst. The armies of Prussia and France are facing each other on parallel lines of nearly one hundred miles in length, and skirmishing between the outposts of the belligerents are of daily occurrence.

The French, in force, are reported to have attacked the Prussians at Saarbruck, driving them out and capturing the place. On the 5th inst., it is reported, the Prussians re captured Saarbruck from the French, after a severe and bloody battle. The telegraph reports several other bloody engagements along the lines, and that, in most of them, the Prussians came off victorious.

The telegraph also reports that on the 6th inst., a force of Prussians under the Prince Royal attacked a French division under the command of Gen. McMahon defeating the latter General with great slaughter, the Prussians capturing two Eagles, six Mitrailleurs and 4,000 prisoners.

We also have the news that the French lines having been broken that Napoleon is concentrating his troops for the defense of Paris.

As these despatches all come through Press sources, and none having been received from France, the news must be taken with considerable allowance; but enough can be gleaned from them to know that a very severe battle has been fought, and that, on the whole, the Prussians have been victorious.

STATE OF CROPS.

We learn from the July Report of the Department of Agriculture that the average depreciation of the wheat crop of this year over 1869 is about 13 per cent., and the diminution of acres harvested about 6 per cent., The estimate in bushels for the year 1870. 210,000,000 bushels being a decrease from last years' yield of about 48,000,000.

The increase in the number of acres of corn planted in 1870 over 1869 is greater than the decrease in acreage of wheat; the number of acres of corn cultivated this year being estimated at 1,750,000. The condition of the corn crop is above an average in nearly every state in the Union.

The condition of the oats crop for 1870 is a full average in one half the states and in the other half the deficit is about 9 per cent.,

The increase in acreage of cotton averages 12 per cent., and aggregates nearly a million of acres. The condition of the crop is so far favorable for a good yield. The Agricultural Bureau estimates the yield of cotton for 1870 a four million bales.

The increase in the acreage of tobacco is put down at 5 per cent., with a fair prospect of an excellent crop.

THE NATIONAL BANKS.—The New York *Tribune* remarks: There never has been an hour in our financial history when the banks in the United States were in a stronger and healthier condition than they are to-day; or that the people have been supplied with a currency so perfectly safe and secure, because it is based on our Government bonds. Of the national banks, which are required to keep 15 per cent reserve, there are 1,896, and on the 9th of June last they had of reserve nearly half as much again as the law demands. Of the 162 banks required to keep a reserve of twenty-five per cent., which would be $59,000,000. they have actually a reserve of $75,000,000. Well does the editor of *The Financial Chronicle* say: "To our National Banks must be awarded the honor of keeping up with fidelity their old reputation as the strongest banks in the world in regard to the specific safeguard of a lawful money reserve." It is rather a singular fact with our National Bank notes, that if a bank fails its votes are at a premium. Can a paper currency be better than ours?

LIBERAL, HONEST AND PATRIOTIC.—The Republican party (says a cotemporary) seeks to oppress no man, or class of men, but weighs all in the scale of equality and freedom. It has no purposes but the good of the masses, and refuses to make the color of the skin a test of merit in the man. It seeks to protect the labor of the mechanic and the artisan, and to build up and sustain diversified industry, thus adding to all classes, opportunities for employment, and for securing living wages. All its purposes are in harmony with the true interests of the people. All its aims are the elevation of man to his true statute and dignity, as becomes American citizens. It disdains trickery and cunning, and shows an open hand in what it does. It makes no appeal to mere prejudice, but to reason and sober judgment. It is for these reasons that the party is armed with strength of purpose, and the will to do what is just and right, regardless of trifling objectors, and frivolous pretenses. In its triumph lies the safety of the country.

Dr. Pierce's Alt. THE French Emperor should not meddle with other people's business. He interfered in Mexican affairs, and lost by it. He meddled with American affairs to help Jeff. Davis, and suffered by it. He was humiliated in his attempts at interfering with German affairs four years ago. In now meddling with Spanish and Prussian affairs, he may meet with the same kind of bad luck which he has previously suffered by this officious intermeddling.

A SAFE, CERTAIN AND Speedy Cure FOR Neuralgia AND ALL NERVOUS DISEASES.

Its Effects are Magical.

It is an UNFAILING REMEDY in all cases of Neuralgia Facialis, often effecting a perfect cure in less than twenty-four hours, from the use of no more than Two Or Three Pills.

No other form of Neuralgia or Nervous Disease has failed to yield to this Wonderful Remedial Agent.

Even in the severest cases of Chronic Neuralgia and general nervous darangements,—of many years standing—affecting the entire system, its use for a few days, or a few weeks at the utmost, always affords the most astonishing relief, and very rarely fails to produce a complete and permanent cure.

It contains no drugs or other materials in the slightest degree injurious, even to the most delicate system, and can Always be used with perfect Safety.

It has long been in constant use by many of our Most Eminent Physicians, who give it their unanimous and unqualified approval. The following, among many of our best citizens testify to its Wonderful Efficacy;

"Having used Dr. Turner's Tic-Douloureux or Universal Neuralgia Pill personally,—and in numerous instances recommended it to patients suffering with neuralgia—I have found it, Without An Exception, to accomplish All the proprietors have claimed.

J. R. DILLINGHAM, Dentist.
12 Winter Street, Boston, Feb, 18th, 1867."

Mr. J. M. R. Story, for many years an apothecary in this city, and for three years during the war, in the Hospital Department under the U. S. Government, thus speaks of it.

"I have known Dr. Turner's Tic-Douloureux or Universal Neuralgia Pill for twenty years. I have sold it and used it personally, and I have never known of a case where it did not give relief. Customers have told me they would not be without it if each pill cost 10 dollars I think it the most reliable and valuable remedy for neuralgia and nervous diseases in the world."

Messrs Turner & Co:

"For a long time a member of my family has suffered severely with Neuralgia. The pain was almost unendurable. We tried various medicines without success. A few months since, we began the use of your Pill. It has proved Perfectly Successful, and no traces of the disease remain. I can gladly recommend your remedy to all sufferers from Neuralgia.

Respectfully yours, F. W. PELTON.

THE REPUBLICAN.

Wednesday Morning, August 10, 1870.

LOCAL ITEMS.

FOR THE CAMPAIGN.

We are now offering the BELLEFONTE REPUBLICAN for the campaign, or for three months, for FIFTY CENTS in advance. Every Republican voter in the county should subscribe for it. We are confident you are all able to do so. Will not some active, energetic Republican in every township and borough in the county take hold of this matter, and get up clubs for our paper. It will not be a small campaign paper, but the REPUBLICAN, full size, for the campaign. Republicans of Centre county, awake, arouse. Centre county must be redeemed from copperhead misrule. To do this, you must circulate the REPUBLICAN. Circulate the truth and the light.

THE best time to advertise—all the time.

WE go to press on Tuesday, this week, one day in advance of our publication day.

REPAIRS.—Mrs Turner, widow, of James D. Turner, deceased, is having her brick House on Allegheny Street, painted and lined. It will be beautiful when finished.

ZIMMERMAN BRO'S & Co., are selling Lawns at from 8 to 25 cents per yard, Percels 15 to 20 cents and other summer dress goods at cost, to make room for fall goods. Dont fail to call at Zimmermans if you want bargains.

A FACT.—Look at Sechler & Co's., advertisement in this number of the REPUBLICAN. Merchants of Bellefonte if you wish to keep pace with Sechler & Co., you must not only get up in the morning; but you must advertise.

NEW PAVEMENT.—Mr. J. B. Awl, has taken up the old pavement in front of his Store and dwelling, and is replacing it with the patent or tar pavement. This is an improvement which has long been needed, and we are right glad that Mr. Awl has commenced the work.

STAMPED envelopes of a new and beautiful design have been issued to the postoffices. A fine white medallion portrait of Washington occupies the centre, surrounded by an engraved border printed in green, with the inscription "U. S. Postage, three cents."

DISTINGUISHED VISITORS.—We had the pleasure last week of looking upon the pleasant faces, of Wm. F. Courter Esq., Rev. Ridge, Robert Martin, Esq., and Jacob Crotzer, Esq., all of Liberty tp., who were kind enough to visit our sanctum and engage us in a pleasant conversation. Come again gentlemen we are always glad to meet our friends.

NEW SIGNS.—J. G. Kurtz has been doing quite a business for the last three weeks, in sign painting, having painted one for J. B. Ettele, wholesale liquor dealer; One for Emil Joseph & Br'o., merchants and jewellers, and a beautiful sign for A. Sternburg dealer in Dry goods, Clothing, &c. Mr. Kurtz as a sign painter is, indeed, hard to beat.

PIC-NIC.—The Bellefonte Hose and Ladder Co., will hold a Pic-nic in Valentine's Grove, south of Valentine's Iron Works, on the 18th inst. They are making every preparation for a good time. We hope our citizens will arouse themselves and turn out to this Pic-nic *en masse*, as we understand that the proceeds are to be devoted to the organization. May they realize handsomely, is our wish.

"WHAT TO WEAR AND HOW TO MAKE IT."—Is the title of a book of Instructions on dress and dressmaking, published by Mme. Demorest, at 15 cents. Dressmakers and ladies generally will find in this manual much useful information, and complete instruction in every department of ladies' and children's dress. It is issued semi-annually, and sent free of postage. Address Mme. Demorest, 838 Broadway, New York.

BUSY.—It is really amusing to see the members of the Court House Ring all seated in a row, in the Court house yard under the maple trees, this hot weather, looking wise, and rich and saucy, busy, constantly busy in planning, how to keep the Pennsvally Democracy in the traces without giving them any of the fat offices. It is a question, which troubles them prodigiously. In our opiniou, they will not sit under the Maples much longer.

PICKING PEACHES.—The Wilmington Delaware *Tribune* says, almost every night, women who have vainly endeavored to gain employment in some of the larger cities, pass through this city and obtain lodging in the City Hall basement. Five women were lodged there Thursday night, and started on foot this morning, for portions of Kent County, to engage in this business. From now until the latter part of August large numbers will continue to follow.

THANKS.—We return our thanks to Wm. H. Humes, for a sack of most excellent white flour presented us last week. Mr. Humes, owns the fine Stone Mill on Logans Branch near Manns Axe Factory and has one of the best millers—Mr. H. Sampsel, to be found anywhere in Centre county. Lumbermen and others having men in their employ, as well as heads of families will save money by purchasing their flour from Mr. Humes. Office up stairs in the REPUBLICAN building.

MILESBURG.—Mr. A. T. Boggs has opened a large and extensive Grocery, Boot & Shoe, and Fancy Store in Milesburg in the room formerly occupied by Weaver & Shope. Mr. Boggs is a young man of great enterprise, honest, industrious, energetic. He is determined to keep nothing, but the very best of everything in his department of business, for sale, and to dispose of anything and everything which he keeps for sale at the very lowest figures. We have no hesitancy in recommending him to the public. See advertisement in another column.

WE have been looking around for some time for a plain and sensible report from some county Superintendent of Public Schools in Pennsylvania, wishing to condense it for our readers who feel just now interested in such matters, in view of the propable appointment at an early day of a Superintendent, in this city. We have thus far been unable to find one. They are all strung out to the largest possible extent and Sophomoric, in matter and style. They talk too much about "the great cause" of education, and too little about the methods of the very practical and unpoetic work of teaching. They lack force dignity and point.—*Delaware Tribune.*

For the REPUBLICAN

MESSRS EDITORS:—What is the duty of the County Superintendent we ask? Is it to swing around the circle and endeavor to induce pupils from Academies Seminaries, &c., to come to his *royal sanctum?* To impress them with the idea that REBERSBURG is the only place in Centre county where teachers can be properly taught, that its worthy instructor can alone fit them for the great work of educating the youth, and, that if they do not wish to follow the vocation "Eden Seminary and other select schools may do for them to go to." Institutions whose reputation was established long long, before this famed Normal came into existence, and, last but not least to promise them if they will only come they shall be rewarded with such a precious Certificate as they never owned before, just as though those (perhaps unmerited) figures could make any one a scholar.

Ah! our ideas of what man should be and of the true County Superintendent are different far from this; and we sincerely hope that the day is not far distant, when such men as Prof. Hastings and others, also, *noble women* will triumph over the ignoble. Then and not till then will a new era dawn upon the intellectual world, and man (formed in the image of his Creator,) never more stoop to bribe School Directors with a car ride and good dinner if they will only aid him in obtaining an office, but all true workers in the educational vineyard will travel hand in hand in the glorious work, and strive with united efforts to banish the murky clouds of ignorance which still linger over a portion of our fair earth.

Co workers with us in select Schools in Centre, although we cannot boast of having charge of the County Normal let us press nobly on and never let the love of fame prompt us to deal underhanded blows at any Institution for the purpose of elevating our own, and should we ever go on an excurtion to the coal regions of this County, may it be for the express purpose of gazing upon Nature in all her beauty, grandeur and sublimity.

In conclusion we are led to exclaim. Oh how we admire the true the noble and the good and despise what is base and vile.

FRIEND OF EDEN SEMINARY.

FIRE.—On Tuesday afternoon of last week, a fire broke out in the old stables in the rear of the new Episcopal Church. In a few moments our efficient Hose and Ladder Co., was on the ground working in noble style to save the surrounding property. The wind was blowing eastward, and carried sparks upon the scaffolding of the new church, upon the roof of Jesse Klinger's house and blacksmith shop and several other houses in the neighborhood. The gas works being built of brick and covered with slate was at no time during the fire in any danger.

The Hose and Ladder company, A. B. Hutchison, Esq., President, is composed of the most energetic and vigorous young men of our town. This is the first fire of any consequence, since the organization of the company; but we are compelled in justice to state, that these men remained perfectly cool, no excitement, no disorder, and they worked like old veterans.

Our citizens should see to it, that this company is kept up, and encouraged financially and otherwise.

OAK HALL MILL.—This mill is now in first rate order, and is turning out a first rate quality of flour. Mr. Solomon Hamer, one of Harris tp., best citizens is the miller, and he makes it a point not to be surpassed by any one in his branch of business. Mr. Hamer is not only a good miller, but he is loyal and patriotic. Two of his sons entered the army to aid in the suppression of the slave-holders rebellion. One of them was murdered by the rebels, the other returned at the close of the war bearing honorable scars. We wish Mr. Hamer success in his business and hope he may live to see the day that the men who murdered his son, and their sympathiseis in the North, P. G. Meek for instance, will be compelled by the force of enlightened public opinion, to hide their faces for very shame.

CHANGE IN THE BANKRUPT LAW.—By the act of Congress passed July 14th, 1870, the bankrupt law was so amended that a discharge can now be granted on all indebtedness created prior to January 1st, 1869, without the fifty per centum on the dollar. On all debts created since January 1st, 1869, fifty cents must be paid in order to receive a discharge. The effect is that on all debts contracted before the 1st of January, 1869, a discharge can be obtained upon the payment simply of the court costs, as under the original law.

BOGGS TOWNSHIP.—The Auditors of Boggs tp., have published their account as settled with the supervisors of Roads, and the Poor Overseers. The law makes it incumbent, upon every tp., and Borough in the County, to publish these annual settlements, or Reports, in at least one paper published in the County, and affixes a penalty for the neglect of this duty. Would it not be well for the Auditors in the township and Boroughs of this County to examine this law and govern their actions accordingly?

LOOK AT OURS.—The fellow that does up the locals for the *Watchman*, boasts of having been presented with a large jack-knife. You ought to call at the REPUBLICAN office and take a look at ours—the $2,50 knife presented to us by the enterprising firm of Harper & Bro's. This firm alwaye does the handsome thing. The result is their store is always full of customers.

BOROUGH AUDITORS.—We printed 600 slips last week, containing a statement of the "Expenditures of the Borough of Bellefonte" and intended to be thrown around loose. Now let the Auditors of the Borough step in and do their duty. Audit this account, gentlemen, and let us see whether it is correct. We believe the penalty is severe upon you for neglect of this duty.

FOR SALE.—By referrence to the advertising columns of the REPUBLICAN, our readers will see that Messrs Rankin & Irwin Real Estate Agents, offer for sale a splendid country residence, with all the modern improvements and conveniences, situated in the Borough of Howard. There is a great bargain in this property as we are informed.

NEW HOUSE.—Col. D. K. Tate is building a nice new house. Will the *Watchman* please make a note of this. Hard times, and yet there never was a time when so many mechanics and laboring men, owned their own homes, and as independent as now.

For the REPUBLICAN.

ROCK SPRING, August 5th, 1870.

MESSRS. EDITORS:—We are now here at Rock Spring, a beautiful village located at the head of Spruce Creek. The hotel is kept by Samuel Goss who is ever ready to accommodate all who may give him a call—his wife is one of the best cooks in Centre county—always ready to wait on you with a smiling countenance, the truth of which you will attest if you give them a call. The Postoffice is kept by Bolinger & Mattern, who have a store in connection with the office. They too, are the most obliging men, attending to business in the most satisfactory manner, to the community. Smith Shop, Shoemaker and Taylor Shops, are all conducted on the most approved style, and by the most experienced workmen. We have also, a number of farmers at this place who do credit to there calling Col. Ayers, amongst them who is also a practical Rail Road man, and who if elected to the Presidency of the Lewisburg and Spruce Creek R. R. would ensure its speedy completion. Pennsylvania Furnace is also in the bounds of this place belonging to, and Superintended by Wm. M. Lyon & Co. Where good morals and the making of good metal are combined, we have also a beautiful Church Edifice, at this place, a small Seminary, and in short, almost every thing to make a place desirable to Republicans and moralists. There are but few Democrats here and they are reasonable ones, not bound by their party nominations nor believing in there ultra theories. The people here desire the nomination of Armstrong for Congress and will support the nominee of the Republican party for Senate let it be Coburn, Wilson or Barlow.

Persons wishing to visit Pine Grove, Farm School, Boalsburg, Old Fort, Centre Hall, Millheim, Aaronsburg or any point between Spruce Creek and Lewisburg, would do well to leave the Pennsylvania Railroad at Spruce Creek, and take the Stage Coach, which is now under the control of Maj. M. Buoy, who makes every effort to accomodate the traveling public, furnishing good Coaches, good Horses, and last, but not least the best of drivers always ready to accommodate you in your desires, particulary kind and obliging to lady travelers. The Major has been fortunate in his selection. The line never paid so well as at present and the Proprietor deserves encouragement by the public for his efforts to accomodate. By nature the Major is accommodating and clever.

You leave Spruce Creek at 8 A. M., and arrive at Rock Spring at 12 o'clock, where you take dinner, and if you wish, have time to visit the head of Spruce Creek, gushing out of the rocks. The Proprietor John G. Heer, or his lady will answer any inquiries you may wish to make, or if you wish you have time to stop into the store of Bolinger & Mattern, where you can be accomodated in any thing in the dry goods line you may wish, or if you wish a little brush on politics, they are posted, and ready for discussion, but be careful how you advance your factious views. But especially be careful how you speak injustice done the South, by the late rebellion.

We have only to say, wish this and other points along the route, and you will not regret it. Pine Grove the next place is an old and flourishing town, where you might visit to stay a few days if once there, next you go to the Agricultural College or Boalsburg. The College fair bids to satisfy the most sanguine expectations of its friends, under the management of Professor Burrows.

But ever for the

15th AMENDMENT.

For the REPUBLICAN.

BEECH CREEK.—Beech Creek is a thriving town, lying on the border of Clinton and Centre Counties, well known for the progressive spirit and goaheaditiveness of its citizens. It would be useless to attempt to give an account in detail of all the improvements going on, and objects of interest that enlist the attention of the observer, in that town. But it is worthy of note, that in pushing forward, and enlarging their business interests, with so much vigor the citizens have not forgotten, nor overlooked the importance of Divine worship in the community, in order to secure its permanent and lasting prosperity and peace.

They, therefore, have in course of erection three very fine, large brick churches.

The Presbyterians have theirs well under way, and now hold services in the basement story. The Disciples are doing well, and would do better, and have every reason to hope for success, if a united effort were made, and little dissentions and divisions healed over. The Methodists, although the last to begin, are the first to complete their building. They have been worshiping in the basement for some time, and, on Sunday the 7th inst., that part of the church was dedicated to the service of Almighty God. The dedicatory services were preached in morning and afternoon by Rev. Langley, of Lock Haven, and the services conducted by him and Rev. J. A. Buckley, pastor in charge. The congregation, composed of about four or five hundred souls, all told, including men, women and children, were somewhat startled when the Minister announced that it would require two thousand dollars to liquidate the present indebtedness, and complete the church, and that it must be raised on the present occasion, so that they might present the church a free-will offering to Almighty worship. However, after amost forcible and eloquent sermon by Rev. Langley, from Matt., 16c; 18v, "And I "say also unto thee, that thou art Peter, "and upon this rock I will build my "church, and the gates of hell shall not "prevail against it," concluding with an eloquent appeal for the support of the church. The congregation readily subscribed fourteen hundred and ten dollars. The subscriptions being resumed in the afternoon, the entire amount asked for, and one hundred and thirty-seven dollars more was raised.—The whole sum raised amounting to twenty-one hundred and thirty-seven dollars, enough to enable them to complete the church at once, and dedicate it free from all debt. The day's work was a grand success, and speaks favorably for the energetic spirit of Methodism there, and augurs well for the future morals, prosperity and happiness of the people of Beech Creek.

FULLY CORROBORATED.—The Democratic Delegate election on Saturday last, in this borough, fully corroborates all we have published in regard to the Ring' and the conspiracy of Meek, Alexander, Burns, Potter, &c., to cheat D. G. Bush, and the honest, anti-Ring portion of the Democratic party. Alexander received 63 votes, D. G. Bush 3 votes. Of course, Alexander's delegates will go for Meek. Ah, Bush, the Ring does not claim you!

ONE Hundred Dollars in Gold is offered by the publishers of The Bright Side for short contributions; $50 for the best poem, and $50 for the best prose article of 1500 to 4000 words. Particulars may be learned in their issue of August 4th, a paper of unusual beauty and merit. Specimen free. John B. Alden & Co., publishers Chicago, Ill.

DELEGATE ELECTIONS.—The delegate elections held by the Republicans in the different townships throughout the county have, so far as heard from, resulted in the election of delegates instructed to vote for Wm. P. Wilson, Esq., as Centre county's choice for the State Senate.

CORRECTION.—The Report of the Committee, giving the particulars of the Harvest Home at Agricultural College, is on our fourth page. It was Thomas McKean of Walker tp., who was on that Committee instead of Samuel, as written and printed.

NEWS FROM OTHER COUNTIES.

MIFFLIN COUNTY.—Glamorgan Furnace turned out 510 tons of pig metal during the month of July, besides losing 9 tons by accident.

....The "young ideas" of Lewistown amuse themselves by shooting at each others' eyes with bow and arrow. One soon became proficient enough to hit the centre of the eye of his playmate, the result of which is that hereafter he can only "go one eye on it."

......Maj. Buoy, of Lewistown, has the contract of constructing the Washington railroad from Point of Rocks to Washington city.

....The hands of the Ross Mining Company, in Mifflin county, had an extensive fall in their mines a few days ago. It was no wind fall, but a fall or slide of solid hematite iron ore, measuring fifty-four feet long, eight feet wide, and twenty feet in height, making 8,640 cubic feet, and containing 540 net tons.

CLEARFIELD COUNTY.—During the thunder storm, which passed over Grampion Hills, on July 25th, the dwelling house of Col. James Miller, about half a mile west of Pennville, was struck by lightning.

....A terribly destructive tornado passed down Lick Run on the 27th ult., demolishing houses, timber, and everything that was demolishable, in its course. The extent of country devastated is, on an average, about two miles in breadth. and some ten or twelve miles in length, the principle destruction being among the pine timber, and within the first seven miles of its course. The loss sustained has not been estimated, but will reach many thousands of dollars.

......Judge Leonard, while going up a ladder with some shingles, one of the rounds gave way, precipitating him to the ground, injuring him very severely.

LYCOMING COUNTY.—Mrs. and Mr. Samuel Barto, of Nippenose township, in this county, have twin sons, only five months old, who can talk quite plainly. This is making an early beginning, especially for that *gender*. It would not be so astonishing if they were of the other sex. Excuse us, ladies.

....We regret to learn that our fellow-citizen, the Hon. Wm. F. Packer, is at present in rather precarious health, but we sincerely hope that his numerous friends will soon be gratified to hear of his improved health.—*Sun & Democrat.*

......Mr. Wendle, of Port Penn, informs the *Luminary* that he has a stalk of corn in his garden which measures fifteen feet one inch in height, and would like to hear of the man that can beat it.

......The fifth annual pic-nic of the Williamsport Sængerbund will take place Tuesday, August 16, at the Herdic Park. The occasion will be an interesting one, and will afford a rich day's entertainment to any who attend.

......Mr. John Gray, whilst out hunting, on the 1st inst., managed to capture three young coons in a hollow tree.

The Jersey Shore *Vidette*, published at Jersey Shore, Lycoming county, Pa., says that the population of Jersey Shore is less than it was ten years ago, and we are afraid that the statistics of business will show a similar state of things, which he attributes mainly to the lack of enterprise and public spirit which characterizes the majority of our citizens.

CLINTON COUNTY.—The Republican county convention will be held on the 6th of September next.

....A new Methodist Episcopal church is to be built, shortly, in Flemington.

......A man named Paul Staub was seriously injured, on Sunday afternoon last, at Fable's brewery, by accidentally falling from a pole erected for gymnastic exercises.

......The amount of Internal Revenue tax assessed and collected in Clinton county for the year ending May 31, 1869, was $21,166 00 and for the year ending May 31, 1870, $25,084 00, showing an increase of $3,928 00, or 18.57 per cent.

......The citizens of Lock Haven have erected several piers on the river bank at that place for the better protection of rafts.

....A man named U. Cramer, of Millheim, Centre county, was arrested by officer Fowler, on Monday last, upon the oath of United States Detective Benson, charged with violating the Revenue laws in the manufacture and sale of cigars. He was taken before United States Deputy Commissioner Deise, and entered bail for a hearing.

......James Jones, freight conductor on the P. & E. Railroad, was killed, at Renova, on the 5th inst., while coupling cars.

......Messrs. Thomas & Mason have built, in the last three months, and now have in operation a new saw mill which contains one gang of 30 saws, one 15 foot circular saw, double edge, and a lath and planing mill.

....HUNTINGDON COUNTY.—Henry Shaffer of Mount Union, was killed on the Railroad last week.

......The boys of Huntingdon play "shoo fly" by burying a duck's body in the mud, and then pelting its head with sticks, the first one hitting it claims the duck. That town boasts of a Young Men's Christian Association.

......Politics is on the rampage in that county. There are four papers, and all red hot, not two of them agreeing on a single issue.

BLAIR COUNTY.—Jas. R. Stewart, engineer on the Branch railroad, saw a child crawling across the track about sixty yards ahead of the locomotive.—With rare presence of mind, Mr. Stewart immediately shut off steam, reversed engine and blew down brakes, and then, with lightning speed, went over the engine, and down onto the point of the pilot, or cow-catcher, and, just as the pilot was in the act of striking the child's legs, with a sweep of his "good right arm," lifted and threw it off the track. As soon as the train could be stopped, the child was picked up unharmed. The gratitude of the parents to Mr. Stewart, who, at the risk of his own life, had saved that of their darling, can better be imagined than described. All honor to the engineer.

. A man by the name of Baker was shot in Hollidaysburg one night last week by a person named Reeves who was connected with a show. Reeves made his escape.

At the Democratic convention, Martin Bechtel, the one-armed soldier, received 19 votes, and John B. Warfel received 35 votes.

The Postmaster General has declared Tyrone, Pa., to be a separating office from August 1st, and allow the postmaster $200 additional per annum for clerical duties.

......The expenses of the school board of the city of Altoona, for the year ending July 1st, 1870, were $20.064 82 $10.838 00 of that sum was paid to teachers. The receipts to the Board for same period were $19,658 51.

FEMALE SUFFRAGE.—Some very illogical persons advance the argument that if women vote, they should also be subject to military duty. Then all men who are exempt as non-combatants from age or infirmity should not be permitted to vote. Disabled soldiers, deformed men, consumptives, near sighted or deaf people, and many others must, according to this principle, be deprived of the ballot.

MANHOOD

In the Young and Rising Generation-

The vegetative powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwards upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it fed on; the energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so facinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

HELMBOLD'S

EXTRACT BUCHU

For Weakness arising from excesses or early indiscretion, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision Langour, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of attention, Great Mobility, Restlessness, with Horror of Society. Nothing more desirable to such patients than Solitude, and nothing they more dread, for Fear of Themselves; no Repose of Manner, no Earnestness, no Speculation, but a hurried Transition from one question to another.

These symptoms, if allowed to go on—which this Medicine invariably removes—soon follow Loss of Power, Fatuity, and Epileptic Fits, in one of which the patient may expire.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan Despair
Low sullen sounds their grief beguiled."

Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

COMPLETION OF THE PACIFIC RAIL ROAD.

GREAT RUSH TO STERNBERGS.

Sung to the tune of Yankee Doodle.

The Great Pacific Railroad's laid,
From ocean unto ocean,
And now complete connections made,
An enterprising notion.

The mighty work at last is done,
So speedy and brisk, oh!
And now in ten days we can run
From here to San Francisco.

No more we take the ancient route,
The stage, a horrid slow thing;
It banged the passengers about
And wore out all their clothing.

CHORUS, for the end of each verse:

The Great Pacific Railroad laid,
From ocean unto ocean,
And we buy clothes from A. STERNBERG,
A most delightful notion.

Through passengers by the Pacific Railroad will call at the store of A. Sternberg, before starting, and provide themselves with a complete outfit of Spring and Summer clothing, the very best assortment of which will always be found at A. Sternberg's Store.

People who travel by other routes, and also people who, instead of travelling by any route at all, prefer to stay at home, can find the most superior and seasonable garments, for every occasion, of every variety, and at the lowest price.

ROSADALIS.

THE GREAT AMERICAN health RESTORER, purifies the blood and cures Scrofula, Syphilis, Skin diseases, Rheumatism, and all Chronic Affections of the blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens. Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says:

I take pleasure in recommending your Rosadalis as a very powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he hasused Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleaner of the Blood I know no better remedy.

Samuel G. McFadden, Murfreesborough, Tenn., says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes, I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by F. P. GREEN, and Druggists generally.

For the REPUBLICAN.

AGRICULTURAL COLLEGE,
August 1st, 1870.

To impart additional interest in the "*Harvest Home*" instituted *last year*, it was thought best this year to afford manufacturers and agents an opportunity to test the relative merits of their Mowing and Reaping machines:—the trial of Mowing to commence at 2 o'clock, p. m., on the 27th, and of Reapers at 10 o'clock, a. m., on the 28th of July, 1870.

The trial of Mowers was witnessed by four or five hundred; of Reapers by fifteen hundred or two thousand of the citizens of the State, most of whom seemed much interested.

On the 27th, after the plots had been assigned to each machine, and two or three had opened their respective plots by cutting a swath to and fro,—the committee, the exhibitors and the spectators were all driven by a heavy storm of rain and thunder, from the ground to the house and barn upon the experimental farm. On the conclusion of the storm, after the lapse of about an hour, all returned to the ground and the trial was resumed and concluded under circumstances most admirably calculated to test the merits and defects of the several machines.

The ground assigned for the mowing trial was upon that portion of the experimental farm allotted to the experimental plots, but not yet appropriated, in the rotation of crops impressed upon it, to any specific tests. It was covered by a third crop of timothy and clover in the proportion of three-fourths (¾) timothy to one-fourth (¼) clover. The first growth of clover had died and the second crop started to grow. Beside this, after the mowing of last year, there had been a vigorous growth of timothy which had died during the winter, and which after the rain, formed a material to clog and choke, difficult even for the best machines to overcome.

The Plots for the trial of the Mowers were sixteen (16) rods in length and three (3) rods in width. The Plots for the trial of the Reapers were in the large oats field on the college farm and were forty-two (42) rods in length and three (3) rods in width. Both the timothy and the oats were heavy and in many places fallen and tangled. We tried to preserve a portion of our latest wheat, but it ripened ten days too soon for the Exhibition.

The President and Trustees, impressed with the extreme difficulty in the present state of excellence of many of our machines, to avoid injustice in awards, inclined strongly to the opinion that the Committee selected with great care for the purpose should regulate and control the trial but make no award, allowing the large and intelligent company convened from every section of the State, to form their own judgment upon the relative merits of the machines.

This suggestion, however, met with the disapproval of every exhibitor. Each with confidence in the peculiar merits of his machine, demanded not only the appointment of the Committee but an award of merit.

Enclosed, for the information of the readers of your venerable journal is a copy of the Report of the Committee, whose laborious pains taking and abilities were only exceeded by their modesty.

I am happy to add that we had quite a pleasant and encouraging week. Everything passed off satisfactorily, except that on Thursday though the preparations for 500 guests at dinner were ample, yet the intrusion of more than that number of uninvited persons deranged our plans and ran the supplies short. Next year, measures will be adopted to prevent a similar occurrence.

Very truly &c.,
THO. H. BURROWES.

REPORT.

To Thomas H. Burrows President and Professor of Agriculture and ex-officio member of the Board of Trustees of the Agricultural College of Pennsylvania.

The undersigned Committee appointed by the Trustees of the College at the instance and request of the exhibitors to award upon the relative merits of the several Mowing and Reaping machines entered for competition at the Harvest Home 27th and 28th of July, 1870, most respectfully report:

That the Committee after the two days spent in the trial and the examination of the machines, had only time, prior to their separation, to exchange opinions and arrive at general conclusions.

They therefore authorized their chairman R. R. Bryan, to report the results and append the names of the Committee which he now does, as follows:

Of the eight machines presented as mowers, two to wit: the Kirby and Champion, were *single mowers*, and of these two the Champion was considered the best.

The remaining six, to wit: The Excelsior—The Keystone—The World—The Hubbard—The Dodge and the Ohio Harvester were *combined* machines, and as such we considered the Hubbard the best *Mower* of the whole eight machines on the ground.

It is proper to say that this particular Hubbard machine is the property of the central experimental farm connected with the College has been run during this season, and was, on this occasion, driven by the agent of the Hubbard—J. R. Alexander.

The same machines were entered for the reaping contest, excepting that the two Single mowers had on this trial their *combined machines* which arrived too late for the mowing contest on the proceeding day.

Three of them, to wit: The Excelsior, the Keystone and the World, were operated as droppers, and as in our experience, many farmers prefer the dropper on account of its simplicity of mechanism, we selected the Excelsior as he most satisfactory dropper.

The Champion as a *self-raker*, in view of the superior arrangment of its reelpost and in other respects, was in the opinion of a majority of the Committee the best self raker.

And as a machine best calculated to render satisfaction for *all purposes* of the farmer who only desires to invest in one, in view of simplicity of construction—lightness of draft and other important features, a majority of the Committee agreed that the Excelsior was most desirable.

Want of time (rain having occurred both days) and the fact that preparations had been made for a thorough formal exhibition, occasioned the omission of many tests and rules in a future exhibition it would be proper to supply; among which may be mentioned, a rule that all machines exhibited shall be such as are made for sale and not finished specially or exhibitions.

Sufficient time should also be taken to test each machine thoroughly, and all persons except the Committee and the exhibitors excluded from the immediate vicinity of the machines during such examinations.

If the Committee have erred in any of their conclusions, due allowance should be made for the adverse circumstances under which they labored.

Frank B. Isett, exhibitor of the "Dodge," and who was a former student of the College, had a Binding attachment of his own invention on the ground, which appeared simple in construction and likely to be easily managed and controlled, but want of time prevented its exhibition in the field.

The same want of time prevented the examination of many points of excellence in the machines claimed by their exhibitors, and which commended themselves to the Committee. The machines all performed well, and no farmer should hesitate about purchasing any of those exhibited, the mere fact of vicinity to their place of manufacture or storage, so as to readily obtain duplicate portions, being sufficient to determine his choice where all are good.

All which is most respectfully submitted.

THE GREAT MEDICAL DISCOVERY!

DR. WALKER'S CALIFORNIA VINEGAR BITTERS.

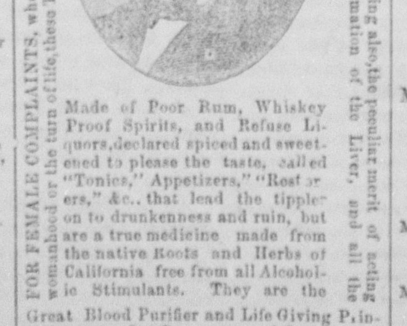
MORE THAN 500,000 PERSONS Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE

FANCY DRINK,

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters have no equal. ☞Send for a circular.



They are a gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion, or Inflammation of the Liver, and all the Visceral Organs.

Made of Poor Rum, Whiskey Proof Spirits, and Refuse Liquors, declared spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true medicine made from the native Roots and Herbs of California free from all Alcoholic Stimulants. They are the Great Blood Purifier and Life Giving Principle, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions, and remain long unwell.

$100 will be given for an incurable case provided the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism, and Gout, Dyspepsia, or Indigestion Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

Clause the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins: cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

In Bilious, Remittent, and Intermittent Fevers, these Bitters have no equal. For full directions read carefully the circular around each bottle, printed in four languages—English, German, French, and Spanish.

Ayer's

Hair Vigor,

For restoring Grey Hair to its natural Vitality & Color.

A dress which is at once agreeable, healthy, and effectual for preserving the hair, *Fresh or gray hair is restored to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparation dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

DR. PIERCE'S ALT. EXT. OR GOLDEN MEDICAL DISCOVERY

This is the most thorough blood purifier yet discovered, and *cures all humors* from the worst *Scrofula* to a common *Eruption*. *Pimples* and *Blotches* on the face, and *scaly or rough skin*, which are such annoying blemishes to many young persons, yield to the use of a few bottles of this wonderful medicine. From one to eight bottles cure *Salt Rheum, Erysipelas, Scalk Head, Ring Worms, Boils, Scaly Eruptions of the Skin, Scrofula Sores, Ulcers* and "*Canker*" *in the Mouth and Stomach.* It is a pure medicinal extracts of native roots and plants, combining in harmony Nature's most soverign curative properties, which God has instilled into the vegetable kingdom for healing the sick. It is a great restorer for the strength and vigor of the system. Those who are languid, sleepless, have *nervous apprehensions* or fears, or any of the affections symptomatic of weakness, will find convincing evidence of its restorative power upon trial. If you feel dull, drowsy, debilitated and despondent, have frequent *Headache, mouth tastes badly* in the morning, *irregular appetite* and *tongue coated*, you are suffering from *Torpid Liver* or "*Biliousness.*" In many cases of "*Liver Complaint*" only a part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal as it effects perfect cures, leaving the liver *strengthened* and *healthy*. For the cure of Habitual Constipation of the Bowels it is a never failing remedy, and, those who have used it for this purpose are loud in its praise.
